WÜRTH

Universal Adhesive Tape

Plastic-coated fabric adhesive tape.

- Strong rubber adhesive.
  Your advantage:
  Very strong adhesion, even on rough and fibrous surfaces.
- Plastic-coating.
  Your advantage:
  The tape is water and steam proof, moisture resistant and suitable for writing.
- Can be torn off by hand.
  Your advantage:
  Quick and easy application of the tape.

Colour	Width mm	Length m	Thickness mm	**Art. No.**	P. Qty.
silver	38	50	0.3	**0992 380**	1
black	19			**0992 381 19**	
	38			**0992 381 38**	
	50			**0992 381 50**	

Areas of application

Suitable as problem solution for may different applications, for example:

- Marking, bandaging and attaching cables.
- Sealing and marking of cartons.
- Padding of sharp-edged items and reinforcing edges.
- Marking of floors.
- Sealing of joints.
- Sealing of ventilation ducts.
- Covering of boreholes, slots and openings.

Specifications

Adhesive base	Rubber
Carrier	Plastic-coated Rayon fabric
Adhesive strength	9.8 N / 25 mm
Elongation at rupture	11 %
Application temperature	+10°C to +40°C (applies to surface and adhesive tape)
Temperature stability	–10°C to +70°C
Shelf life (at approx. +20°C and 50% humidity)	12 months (store dry, lying flat, dust-free and protected against UV radiation)
UV resistance	No
Moisture resistance	Yes

Instructions for use

- The surfaces to be joined must be dry and free from dust, grease and silicon.
- In order to assure perfect adhesion, sufficient pressure must be applied to the tape during installation.
- The tape is suitable for short-term outdoor use only.
- The universal adhesive tape is **not** UV resistant and therefore should not be exposed to direct sunlight.

These notes are intended to provide our advice to the best of our knowledge, based on tests and experience. However, we cannot assume any liability for processing results in individual cases due to the wide variety of applications as well as storage and processing conditions beyond our control. This also applies in case our technical and commercial customer service is consulted free of charge and without obligation. We recommend carrying out individual tests. We guarantee the constant quality of our products. We reserve the right to make technical modifications and advanced developments.
