INDUSTRIAL VACUUM CLEANER FOR WET AND DRY MATERIALS ISS 35

Large stable and rubberized wheels
Ensure good running properties.

Universal vacuum cleaner for sucking up and extraction. Suitable for wet and dry operation.

Flat folding filter does not extend into the container.
Optimum utilization of the canister size.

3-year warranty
On manufacturing and material defects

Note

Available in the ORSYfleet fleet management system

- A dust bag and folding filter must always be used during dry vacuuming. Do not vacuum without a filter system, otherwise the vacuum motor may be damaged and there could be a health risk due to increased fine dust emissions.
- A PES flat folding filter must be used during wet vacuuming.

Applications

Ideal for all general cleaning work, e.g. car vacuuming, floor cleaning, workbench cleaning.

Art. No.	0701 137 1
P. Qty.	1
Max. power	1,380 W
Min./max. nominal voltage	220 / 240 V/AC
Min./max. frequency	50/60 Hz
Container contents	34 l
Underpressure	230 mbar
Air stream	61 l/s
Nominal width	35 mm

Delivery scope for Art. No.	Designation	Art. No.	Quantity
0701 137 1	Fleece Wet & Dry Filter Bag	0702 400 071	1
	Upholstery nozzle, insertable	0702 400 233	1
	Wet/dry floor attachment, insertable	0702 400 284	1
	Suction hose, clip-on	0702 400 320	1
	Paper Flat Folding Filter	0702 400 367	1
	Plug-In Crevice Attachment	0702 400 385	1
	Metal tube, insertable	0702 400 514	1
	Elbow, clip-on	0702 400 718	1

Supplement to Art. No.:	Designation	Art. No.
0701 137 1	Reduction piece, clip-on, plug-in	0702 400 107
	Flat folding filter, coated	0702 400 191
