

## ALUMINUM WHEEL CLEANER

### Areas of application:

For gentle cleaning of light-alloy wheel rims.

### Application:

Spray wheel rims to be cleaned fully and evenly. The cleaning effect can be increased, especially on stubborn soiling or rough surfaces, by using the Würth hand brush or sponge. Do not exceed the soak time of 30 seconds. With unpainted aluminum wheel rims, carry out a thorough material compatibility check in a non-visible area.

**Acidic special cleaner for light-alloy wheel rims.**

### Contains phosphoric acid.

Removes even the most stubborn brake dust buildup, tar spray and other hard to remove soiling.

### Efficient in consumption.

- Saves time and money.
- Regular use maintains the original appearance. The buildup of new soiling is hindered.

**pH value: 1,0.**

**AOX- and silicone-free.**

### Note:

Use only on light-alloy wheel rims. Do not use on hot wheel rims or in direct sunlight. Do not spray on vehicle paint, chrome, highly polished aluminum, plastic or other surfaces.

Designation	Contents	Art. No.	P. Qty.
Spray Bottle	500 mL	<b>0890 102</b>	1/12
Canister	5 L	<b>0890 102 05</b>	1
Canister	20 L	<b>0890 102 20</b>	1

**Hand Brush**

**Art. No. 0891 350 102**

## INSECT REMOVER

### Areas of application:

Windshields, radiator grill, bumpers, headlights, license plates etc.

### Application:

Spray the affected surfaces and allow it to work in for several minutes. Then wipe off the loosened residue with a hard sponge. To prevent scratches from arising, quickly rinse off especially heavy road dirt before the actual cleaning takes place.

**Note:** Do not use on heated paints or in the sun. Protect from frost.

**Improved combination of active substances.**

Paint-damaging insect soiling is easily removed without leaving residue behind.

### Easy and fast application.

Also excellent for pre-treatment before a carwash.

### Gentle on materials.

Does not attack paint, chrome, plastic, rubber etc.

**Does not form emulsions with water and therefore does not hinder the operation of a light liquid separator (DIN 1999).**

**pH value: 11,0.**

**AOX-free.**

**Silicone-free.**
