INDUSTRIAL VACUUM CLEANER FOR WET AND DRY MATERIALS ISS 55-S AUTOMATIC

Large stable and rubberized wheels
Ensure good running properties.

Appliance sockets
Connection for power tools with electronic automatic On/Off switch.

Ergonomic metal push bar
Can be pushed without great expenditure of effort.

Filter cleaning
Constant high suction power thanks to automatic, time-controlled cleaning of the main filter.

Great freedom of movement
Two swivel-action guide rollers, one with parking function. Robust bumper protects the unit against impacts.

Controllable suction power
Individual suction power adjustment.
