

## 12 VOLT BULBS FOR CARS

### Active drivers

**Nightstar plus 90** is the next phase in the development of our "+X%" halogen bulb line for active, safety-conscious drivers and harmonizes light and design. Maximum light output thanks to the optimized filament design, white light through blue ring fields and an attractive design with a silver cap (H4/H7) in conjunction with the new package design make the Nightstar plus 90 a real "star among lights".

The attractive double box is ideal for hanging or free-standing placement and features the dot classification system to make the advantages of the bulb (brightness, luminous range) stand out.

### The advantages at a glance

- Up to 90% more light on the road for maximum safety
- Up to 35 m longer light cone
- White light relieves your eyes for fatigue-free, relaxed driving
- Optimal design with a silver cap (H4/H7) and blue ring fields → Ideal for clear glass headlights
- Attractive packaging design for supplemental sales at the counter

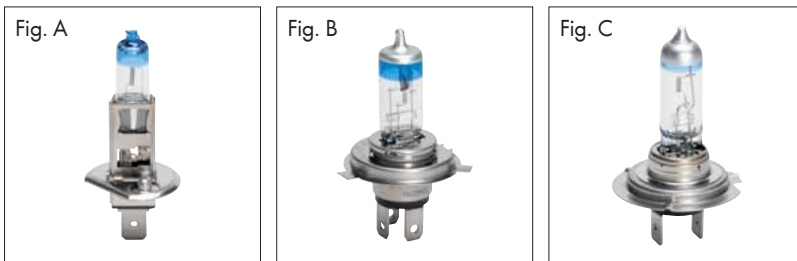

Fig.	Model designation	Volts	Watts	Base type	Art. No.	P. Qty.
A	H1 Nightstar plus 90	12	55	P14.5s	<b>0720 111 190</b>	2
