

12-volt bulbs for cars

Active drivers

All **halogen bulbs with +30% or +50%** are a fitting companion for night owls who want to get where they're going with greater convenience and less fatigue after long trips through improved roadway lighting. This means that vehicles equipped with +X% halogen bulbs have a major safety advantage:

→ Up to 50% more light on the road at a distance of 50 – 75 m in front of the vehicle allows the driver to react quicker to obstacles, dangers and signs.

Your advantages at a glance:

- Up to 50% more light on the road, which means even greater safety.
- Up to 20 m longer light cone.
- Modern design with silver cap (H7+50%)
→ Ideal for all clear glass headlights.
- For active, safety-conscious drivers.

Fig.	Model designation	V	W	Base type	Art. No.	P. Qty.
A	H1 +30%	12	55	P14, 5s	0720 111 12	10
	H1 +50%				0720 111 150	
B	H4 +30%		60/55	P43t	0720 110 11	
	H4 +60%				0720 110 160	
C	H7 +50% Silver cap		55	PX26d	0720 114 110
