

# Clearance, Tail and Position Lamps LED Version

## Advantages of LED technology:

- Long service life, as maintenance-free.
- No bulb change necessary.
- Very low power consumption.

## LED Clearance Lamp III universal ADR-tested

- Top design with clear-glass look!
- With **3** LED functions: Position lamp, tail lamp **and** side marker lamp!
- Can be used with 24 V **and** 12 V systems!
- LED unit completely encased in PUR. If the lens unit is damaged, no moisture penetrates into the contact area.
- Light exit: red/white/yellow.
- Flexible lamp arm of thermally stable rubber material.
- Mounting hole spacing compatible to all common types  
→ no drilling!
