

## HYBRID CAR WINDSHIELD WIPER

With pre-mounted multi-adapter

Pre-mounted multi-adapter

Rugged metal clip system

Improved aerodynamics

### Resealable individual package

- Lengths can be customized.
- Low storage costs and space requirement.

### Improved aerodynamics

Enables greater driving speeds in comparison to standard windshield wipers.

### Rugged metal clip system

- Stainless-steel riveted connection of the individual joints.
- High resistance to weather effects.
- Plastic-borne stainless-steel joints.
- Wiper blades move smoothly across the windshield.

### Refillable (replacement rubber wiper blades can be inserted)

- Optimized storage costs
- Conserves resources (environment)

### Scope of delivery:

1x windshield wiper with profile edge protection including pre-installed multi-adapter for high vehicle coverage.

### Safety:

Make sure that the windshield is free of oil, wax, tar and other soiling so that the service life is not reduced.

### Hint:

Always lay a protective material on the windshield when mounting.

### Field of application:

For older cars with hook attachments (9 x 4 mm) and new vehicles with hook wiper arms (Asian vehicle manufacturers).
