

UNI Spiral Air Hoses

The new universal adapter spiral hose system, suitable for all vehicles.

- Universal spiral hose with adapter system assortment.
Your advantage: minimized stock keeping costs with broad coverage.
- With 5 adapters 95% market coverage.
Your advantage: flexible utilization without costly stock keeping.
- Connectors made of high-quality, yellow galvanized steel.
Your advantage: high corrosion resistance according to original equipment standards!
- Spiral hose made of heat and light stabilized, pure polyamide 12.
Your advantage: no loss of flexibility at low temperatures (temperature range from -40°C to +70°C) or by bleaching due to the effects of UV radiation.
- Connectors with moveable union nut.
Your advantage: easy connections, since spiral hose does not follow rotation during assembly (above all, with Duomatic couplings)!
- Pressure fit connections.
Your advantage: longer service life, because hose is not damaged by cutting ring unions!
- With weather resistant plastic anti-kink protection.
Your advantage: no slackening of elasticity under the influence of weather or bending effects!
- Plastic spring surrounds the entire hose.
Your advantage: no loosening of the plastic spring from the mount!
- Complete with plastic mounting ring.
Your advantage: the spiral hose can be fastened properly even when driving without a trailer.
- With colour code (yellow, red) for black spiral hose.
Your advantage: no mistakes when connecting brake and feed lines.
