

Sound Deadening Pads

Suppresses internal vibration noises caused by vibrating body parts such as e. g. wheel arches, floorpan, bodywork, doors and other side parts.

- Heavy bitumen pads, aluminium coated, self-adhesive.
- Highly adhesive.
- Reinforced against breaking.
- Resistant to water, light acid and alkaline solutions.
- High temperature resistance – 30°C to +80°C (1 hour + 180°C).

Size mm	Art. No.	Pack Qty.
550 x 250 x 2	0890 100 060	1 $\hat{=}$ 6 Pads

Sound Proofing Foam Lining

For sound abatement, temperature insulation and improved appearance of engine bonnets and boot lids.

- Polyurethane soft-foam mats.
- Colour: foam: grey, coating: black.
- Fitted on one side with a dense highly elastic polyurethane coating.
- Self-adhesive.
- Resistant to water, salt water, engine oil, fuel and solvents.
- Impermeable against air, and to a high extent against liquids.
- High adhesive strength.
- Temperature resistant – 30°C up to + 80°C (1 hour + 180°C).

Size mm	Art. No.	Pack Qty.
1000 x 500 x 1	0893 100 065	2
