

VALVE FOR SPARE SENSOR (EZ SENSOR®) WITH RUBBER VALVE

Art. No.	0879 961 001
P. Qty.	10
Material of the valve	Rubber
Suitable for	EZ-sensor 2.0 with rubber valve, EZ-sensor with rubber valve
Max. speed	210 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	1.4 Nm

VALVE FOR SPARE SENSOR (EZ SENSOR®) WITH METAL VALVE

Application area

Suitable for spare sensor (EZ sensor®) with brass valve (generation 1)

Art. No.	0879 961 002	0879 961 004
P. Qty.	10	10
Material of the valve	Brass	Brass
Suitable for	EZ-sensor with metal valve 10 degree	EZ-sensor with metal valve 20 degree
Max. speed	250 km/h	250 km/h
Tightening torque – screw according to manufacturer's specifications incl. tolerance	1.4 Nm	1.4 Nm
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	8 Nm	8 Nm

SPARE SENSOR (EZ SENSOR®) SERVICE KIT + METAL VALVE

Art. No.	0879 961 003
P. Qty.	10
Material of the valve	Brass
Suitable for	EZ-sensor with metal valve
Tightening torque – screw according to manufacturer's specifications incl. tolerance	1.4 Nm
Tightening torque – union nut according to manufacturer's specifications incl. tolerance	8 Nm
Number of pieces in assortment/set	5 PCS
