

FORMING GAS / NITROGEN LEAK DETECTION TECHNOLOGY

HOSE PACKAGE FOR PRESSURE TESTING VALVE

- Hose packages for vehicles with R134a coolant or R1234YF fit onto pressure testing valve
- Connection between pressure testing valve and service ports of vehicle air-conditioning system

Package I Refrigerant R134a

Art. No. 0764 000 803

P. Qty. 1

Contents:

Service hose, low pressure

Service hose, high pressure

Quick-action service coupling for low pressure (M14 x 1.5)

Quick-action service coupling for high pressure (M14 x 1.5)

Hose connections:

1/4" with 90° x M14

Length: 1.20 m

Package II Refrigerant HFO1234YF

Art. No. 0764 000 804

P. Qty. 1

Contents:

Service hose, low pressure

Service hose, high pressure

Quick-action service coupling for low pressure (M12 x 1.5)

Quick-action service coupling for high pressure (M12 x 1.5)

Hose connections:

1/4" with 90° x M12

Length: 1.20 m
