

COOLANT LEAK DETECTION TECHNOLOGY

Electronic coolant leak detector

Art. No. 0764 000 700

P. Qty. 1

- For detecting leaks of CFC, HFC, HCFC coolant (including mixtures)
- Also suitable for HFO 1234YF
- No additional consumables needed to search for a leak
- Visual and audible warning signal (audible can be deactivated)
- Sensor tip with LED warning light function, allowing even more convenient searches
- Unit automatically set to zero (ambient air)
- Battery status indicator
- Supplied with 4x AA Mignon alkaline batteries (Art. No. 0827 02)

| Technical Data: | |
|---------------------|------------------------------------|
| Sensitivity | < 2 g/year |
| Sensor service life | > 300 h |
| Reaction time | Immediate |
| Power supply | 4 AA alkaline batteries |
| Warm-up time | < 20 s |
| Probe length | 43.18 cm |
| Numerical display | 7-segment digital display (1 to 9) |
| Weight | 680 g |

| Optional accessories | Art. No. | P. Qty. |
|----------------------|---------------------|---------|
| Measuring sensor | 0764 000 701 | 1 |
| Filter inserts | 0764 000 702 | 5 |
