

## GAS MELTER

### Notes:

- The gas melter is supplied empty. Initial filling with butane gas, Art. No. 0893 250 001
- Gas filling volume is 9 ml. Equivalent to a burning time of 60-90 minutes.

**For fast, selective melting of hard wax.**

**Art. No. 0890 305 3**

P. Qty. 1

### Flexible in use

- The gas melter is suitable for flexible use, as it has no cable
- Easy to use due to its pen shape
- Thanks to the lighter integrated in the cap, the gas melter is always ready to use

### Excellent temperature control

The application temperature can be set without the gas melter going out.

### High level of safety.

The gas melter is automatically switched off when the cap is pressed on.
