

ACTIVE WASH

Designation	Contents in L	Art. No.	P. Qty.
Canister	25	0893 025 1	1

Areas of application:

For cleaning vehicles in automated car washes.

Use:

Dose undiluted in the brush washing system with the dosing pump. When dosing via the injector, pre-dilute 1 part Active Wash with 9 parts water.

User concentration: 0.02-0.2%.

Consumption per vehicle: approx. 12-14 ml.

Note:

Don't let them dry. Store in a frost-free location.

pH-neutral car shampoo for active-cleaning brush wash for cars and utility vehicles.

Based on cleaning-active tensides

- Dirt particles are completely encapsulated, enabling them to be transported away with the water
- Excellent cleaning result

Combination of special contents supports the sliding motion of the brush

- Gentle on vehicle surfaces
- Prevents the brushes from getting dirty again

No streaking with preservatives and drying aids

- Can be used together with these in car washes with water recovery systems

Free of phosphate, AOX and silicone.

pH value in the concentrate: 7.5

Degrades easily in accordance with OECD* requirements. Does not hamper the effectiveness of light fluid separators.

* OECD = Organisation for Economic Co-operation and Development
