| Version | Revision Date: | SDS Number:  | Date of last issue: 27.01.2017  |
|---------|----------------|--------------|---------------------------------|
| 5.1     | 16.03.2017     | 554949-00005 | Date of first issue: 11.06.2010 |

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

# 1.1 Product identifier

| Trade name   | : | FOOD SAFE HHS - 500 ML |
|--------------|---|------------------------|
| Product code | : | 08931076               |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Use of the Sub- | : | Polishing agent and lubricant |
|-----------------|---|-------------------------------|
| stance/Mixture  |   |                               |

#### 1.3 Details of the supplier of the safety data sheet

| Company  | : | Adolf Wuerth GmbH & Co. KG<br>Reinhold-Würth-Str. 12-17<br>74653 Künzelsau |
|--|---|--|
| Telephone  | : | +49 794015 0   |
| Telefax  | : | +49 794015 10 00   |
| E-mail address of person responsible for the SDS | : | prodsafe@wuerth.com  |

#### 1.4 Emergency telephone number

Giftnotrufzentrale Berlin +49 30 30686 790. Gesellschaft (07:00 – 18:00 Uhr) +49 794015 2552

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

#### Classification (REGULATION (EC) No 1272/2008)

| Aerosols, Category 1                 | H222: Extremely flammable aerosol.<br>H229: Pressurised container: May burst if heated. |
|--------------------------------------|---|
| Skin irritation, Category 2          | H315: Causes skin irritation.   |
| Chronic aquatic toxicity, Category 3 | H412: Harmful to aquatic life with long lasting ef-<br>fects.                           |

#### 2.2 Label elements

#### Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms

according to Regulation (EC) No. 1907/2006

For explanation of abbreviations see section 16.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

General advice

: In the case of accident or if you feel unwell, seek medical advice immediately.

When symptoms persist or in all cases of doubt seek medical advice.

according to Regulation (EC) No. 1907/2006

### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling **Technical measures** See Engineering measures under EXPOSURE 5 CONTROLS/PERSONAL PROTECTION section. Local/Total ventilation Use with local exhaust ventilation. : Use only in an area equipped with explosion proof exhaust ventilation. Advice on safe handling 5 Do not get on skin or clothing. Do not breathe vapours or spray mist. Do not swallow. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice. Keep away from heat and sources of ignition. Take precautionary measures against static discharges. Take care to prevent spills, waste and minimize release to the environment. Do not spray on an open flame or other ignition source. Hygiene measures Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. 7.2 Conditions for safe storage, including any incompatibilities Requirements for storage Store locked up. Keep in a cool, well-ventilated place. Store in : areas and containers accordance with the particular national regulations. Do not pierce or burn, even after use. Keep cool. Protect from sunlight. Do not store with the following product types: Advice on common storage : Self-reactive substances and mixtures Organic peroxides Oxidizing agents Flammable solids Pyrophoric liquids Pyrophoric solids Self-heating substances and mixtures Substances and mixtures, which in contact with water, emit flammable gases Explosives 2B, Aerosol cans and lighters Storage class (TRGS 510) Recommended storage tem- : 15 - 40 °C perature

### Derived No Effect Level (DNEL) according to Regulation (EC) No. 1907/2006:

| Substance name                 | End Use   | Exposure routes | Potential health ef-<br>fects | Value               |
|--------------------------------|-----------|-----------------|-------------------------------|---------------------|
| 2,6-Di-tert-butyl-p-<br>cresol | Consumers | Inhalation      | Long-term systemic<br>effects | 1,74 mg/m3          |
|                                | Consumers | Skin contact    | Long-term systemic<br>effects | 5 mg/kg<br>bw/day   |
|                                | Workers   | Inhalation      | Long-term systemic<br>effects | 5,8 mg/m3           |
|                                | Workers   | Skin contact    | Long-term systemic<br>effects | 8,3 mg/kg<br>bw/day |

### Predicted No Effect Concentration (PNEC) according to Regulation (EC) No. 1907/2006:

| Substance name             | Environmental Compartment  | Value           |
|----------------------------|----------------------------|-----------------|
| 2,6-Di-tert-butyl-p-cresol | Marine water               | 0,4 µg/l        |
|                            | Fresh water                | 4 µg/l          |
|                            | Intermittent use/release   | 4 µg/l          |
|                            | Sewage treatment plant     | 100 mg/l        |
|                            | Fresh water sediment       | 1,29 mg/kg      |
|                            | Soil                       | 1,04 mg/kg      |
|                            | Oral (Secondary Poisoning) | 16,7 mg/kg food |

#### 8.2 Exposure controls

#### Engineering measures

Minimize workplace exposure concentrations. Use only in an area equipped with explosion proof exhaust ventilation. Use with local exhaust ventilation.

#### Personal protective equipment

| Eye protection  | : | Wear the following personal protective equipment:<br>Safety glasses  |
|---|---|--|
| Hand protection<br>Material<br>Break through time<br>Glove thickness<br>Directive | : | Nitrile rubber<br><= 480 min<br>0,45 mm<br>DIN EN 374  |
| Remarks   | : | Choose gloves to protect hands against chemicals depending<br>on the concentration and quantity of the hazardous sub-<br>stance and specific to place of work. For special applications,<br>we recommend clarifying the resistance to chemicals of the<br>aforementioned protective gloves with the glove manufactur-<br>er. Wash hands before breaks and at the end of workday. |

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

Not classified as a reactivity hazard.

#### 10.2 Chemical stability

Stable under normal conditions.

#### 10.3 Possibility of hazardous reactions

| Hazardous reactions | : | Extremely flammable aerosol.                                     |
|---------------------|---|--|
|                     |   | Vapours may form explosive mixture with air.                     |
|                     |   | If the temperature rises there is danger of the vessels bursting |
|                     |   | due to the high vapor pressure.                                  |
|                     |   | Can react with strong oxidizing agents.                          |
|                     |   |  |

#### 10.4 Conditions to avoid

Conditions to avoid : Heat, flames and sparks.

#### 10.5 Incompatible materials

Materials to avoid : Oxidizing agents

#### **10.6 Hazardous decomposition products**

No hazardous decomposition products are known.

#### Serious eye damage/eye irritation

Not classified based on available information.

#### **Components:**

#### Hydrocarbons, C7-C9, isoalkanes:

Species: Rabbit Result: No eye irritation Remarks: Based on data from similar materials

#### 2,6-Di-tert-butyl-p-cresol:

Species: Rabbit Result: No eye irritation

#### Respiratory or skin sensitisation

#### Skin sensitisation

Not classified based on available information.

#### **Respiratory sensitisation**

Not classified based on available information.

#### **Components:**

#### Hydrocarbons, C7-C9, isoalkanes:

Test Type: Maximisation Test Exposure routes: Skin contact Species: Guinea pig Result: negative Remarks: Based on data from similar materials

#### 2,6-Di-tert-butyl-p-cresol:

Test Type: Maximisation Test Exposure routes: Skin contact Species: Guinea pig Method: Magnusson-Kligman-Test Result: negative

#### Germ cell mutagenicity

Not classified based on available information.

#### Components:

#### Hydrocarbons, C7-C9, isoalkanes:

| Genotoxicity in vitro | : | Test Type: Chromosome aberration test in vitro<br>Result: negative<br>Remarks: Based on data from similar materials |
|-----------------------|---|---|
| Genotoxicity in vivo  | : | Test Type: Rodent dominant lethal test (germ cell) (in vivo)<br>Species: Rat<br>Application Route: Inhalation       |
