SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Chronic aquatic toxicity, Category 3 H412: Harmful to aquatic life with long lasting effects.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)				
Hazard statements	:	H412	Harmful to aquatic life with long lasting effects.	
Precautionary statements	:	Preve r P273	ntion: Avoid release to the environment.	

2.3 Other hazards

None known.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	,	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
Protection of first-aiders	;	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists.
If inhaled		If inhaled, remove to fresh air. Get medical attention.
In case of skin contact		In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures			
Personal precautions :	Use personal protective equipment. Follow safe handling advice and personal protective equip- ment recommendations.		
6.2 Environmental precautions			
Environmental precautions :	Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.		
6.3 Methods and material for conta	inment and cleaning up		

Methods for cleaning up Soak up with inert absorbent material. For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	:	Use only with adequate ventilation.
Advice on safe handling	:	Avoid inhalation of vapour or mist. Do not swallow. Avoid contact with eyes. Avoid prolonged or repeated contact with skin. Handle in accordance with good industrial hygiene and safety practice. Take care to prevent spills, waste and minimize release to the environment.

Version 4.3	Revision Date: 14.02.2017		DS Number: 76355-00005	Date of last issue: 05.12.2016 Date of first issue: 11.06.2010	
Hygiene measures		:	Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use		
7.2 Cond	itions for safe storage,	inc	luding any incom	patibilities	
Requirements for storage areas and containers		:	Keep in properly the particular nat	labelled containers. Store in accordance with ional regulations.	
Advice on common storage		:	Do not store with Strong oxidizing	the following product types: agents	
Storage class (TRGS 510)		:	10, Combustible	liquids

8.2 Exposure controls

Engineering measures

Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.

Personal protective equipment							
Eye protection		Near the following personal protective equipment: Safety glasses					
Break through time Glove thickness	4	Nitrile rubber 480 min > 0,35 mm DIN EN 374					
Remarks	o s w a	Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous sub- stance and specific to place of work. For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufactur- er. Wash hands before breaks and at the end of workday.					
Skin and body protection	re p S	Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).					
Respiratory protection		Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates
