

MULTI PLUS

Can be used in areas in which food is processed or stored.
NSF H1¹

The product may come into contact with foodstuffs for technical reasons.

Synthetic, physiologically safe multi-function spray with high-end properties for universal use.

One product for a wide range of applications

- Rust remover with creeping properties
- Wear-reducing lubricant
- Good long-term protection against corrosion
- Reliable release agent
- Suitable for use in physiological and ecologically sensitive areas
- Low risk potential
- Safe method of working

Colourless, non-discolouring

- Can be used on bright surfaces
- No discolouration in the case of occasional contact with the product

Free from white oil/mineral oil

Good material compatibility

Resin, acid and silicone-free

Content ml	Art. no.	PU/Qty.
400	0893 056	1/12

Application areas:

For lubricating and maintaining connecting joints, chains, seals and moving parts in automotive engineering, as well as critical areas of the food, pharmaceuticals, printing and paper industries. As a release agent, for protection against corrosion and for all applications in which the use of conventional mineral oil-based, critical additive and solvent products is not required.

Application:

Pre-clean the surface to be treated. Spray on evenly from a distance of approx. 20 cm. If used in areas in which food is processed or stored, only the minimum quantity technically required may be used. If the product is to be used as an anti-corrosive film, it must be completely removed before the device in question is used again.

Technical data:	
Chemical basis	Synthetic oil with multi-functional additive combination
Density at 20 °C (active substance)	0.83 g/cm ³
Temperature range	-50 °C to +210 °C
Base oil viscosity at 40 °C	32 mm ² /s
Colour	Colourless

Lubricant system

- Oil Grease Paste Dry lubricant Corrosion protection
