

CETANE BOOSTER

Application:

Add Cetane Booster directly to the fuel tank. The dosing quantity depends on the cetane number of the fuel used and the desired cetane number.

Contents	Art. No.	P. Qty.
300 mL	5861 005 300	1/12

Features:

The Cetane Booster improves the ignition qualities of diesel fuels. Reduces emissions and improves cold-start behavior. Engine noises are also reduced.

Improves ignition characteristics of diesel fuels.

Clean combustion

Reduction in fuel consumption

Increase in the cetane number

Improvement in ignition quality
