

# CONTACT SPRAY

Remedies ignition problems quickly and reliably.

- ▶ Cleans ignition cables, distributor caps and plugs.

**Your advantage:**

- Prevents ignition problems caused by moisture in motor vehicles and other low-voltage ignition systems.

Designation	Contents	Art. No.	P. Qty.
Contact Spray	300 ml	<b>0890 100</b>	1/12

# CONTACT SL

Transparent protective varnish

- ▶ Prevents and remedies short circuits in coils and transformers.
  - ▶ Prevents short circuits in the high and low voltage ranges.
  - ▶ Produces a glossy and flexible protective film.
- Your advantages:**
- Insulates and seals.
  - Protects against water, diluted acids, alkalis and corrosion.
- ▶ Bonds to metals such as copper, brass, steel, chrome and aluminum.

Designation	Contents	Art. No.	P. Qty.
Contact SL	200 ml	<b>0893 70</b>	1/12

# CONTACT OL

Oxidation solvent

- ▶ Oxidation-dissolving cleaning agent.
- Your advantages:**
- Cleans all types of contacts.
  - Removes oxide and sulfide coatings, resin, oil and dirt.
  - Removes scale and also impermissibly high tension resistances.
- ▶ Does not attack most structural materials.
- Your advantage:**
- For a broad range of uses.
- ▶ Halogen-free
  - ▶ Contact OL vapors must have completely dissipated before the electrical system is switched back on!

Designation	Contents	Art. No.	P. Qty.
Contact OL	200 ml	<b>0893 60</b>	1/12

# CONTACT SW

Special spray wash

- ▶ Special spray wash for contacts and electrical components.
- Your advantages:**
- Removes colophium residue.
  - Cleans very dirty components.
- ▶ Does not attack plastics and other common materials.
- Your advantage:**
- Many areas of use (electr. parts and elements, circuit boards, relays, terminal strips).
- ▶ Contact SW must be completely dry before the electrical system is switched back on!

Designation	Contents	Art. No.	P. Qty.
Contact SW	200 ml	<b>0893 65</b>	1/12

# CONTACT OS

Oxidation protection

- ▶ Anti-corrosion agent.
- Your advantage:**
- Long-term corrosion protection for new contacts, switches and electro-mechanical drive gear units.
- ▶ Excellent lubricant for fine drive gear units.
  - ▶ Removes dirt, resin, oil and abraded metal.
  - ▶ Acid-free, does not resinify.

Designation	Contents	Art. No.	P. Qty.
Contact OS	200 ml	<b>0893 61</b>	1/12
