V-BELT SPRAY - 400 ML

Version	Revision Date:	SDS Number:	Date of last issue: 05.04.2017
3.5	27.06.2017	430575-00006	Date of first issue: 11.06.2010

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier Trade name : V-BELT SPRAY - 400 ML

Product code : 0893230

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub-	:	Lubricants and lubricant additives
stance/Mixture		

1.3 Details of the supplier of the safety data sheet

Company	:	Adolf Wuerth GmbH & Co. KG Reinhold-Würth-Str. 12-17 74653 Künzelsau
Telephone	:	+49 794015 0
Telefax	:	+49 794015 10 00
E-mail address of person responsible for the SDS	:	prodsafe@wuerth.com

1.4 Emergency telephone number

Giftnotrufzentrale Berlin +49 30 30686 790. Gesellschaft (07:00 – 18:00 Uhr) +49 794015 2552

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)Aerosols, Category 1H222: Extremely flammable aerosol.
H229: Pressurised container: May burst if heated.Skin irritation, Category 2H315: Causes skin irritation.Specific target organ toxicity - single exposure, Category 3H336: May cause drowsiness or dizziness.Chronic aquatic toxicity, Category 2H411: Toxic to aquatic life with long lasting effects.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

according to Regulation (EC) No. 1907/2006

V-BELT SPRAY - 400 ML

Version 3.5	Revision Date: 27.06.2017		DS Number: 30575-00006	Date of last issue: 05.04.2017 Date of first issue: 11.06.2010

SECTION 4: First aid measures

4.1 Description of first aid measures

:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.				
:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists.				
:	If inhaled, remove to fresh air. Get medical attention if symptoms occur.				
:	In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.				
:	Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.				
:	If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.				
4.2 Most important symptoms and effects, both acute and delayed					
:	Causes skin irritation. May cause drowsiness or dizziness.				
4.3 Indication of any immediate medical attention and special treatment needed					
:	Treat symptomatically and supportively.				
	: : : :				

SECTION 5: Firefighting measures

5.1 Extinguishing media								
Suitable extinguishing media	:	Water spray Alcohol-resistant foam						

Carbon dioxide (CO2)

according to Regulation (EC) No. 1907/2006

V-BELT SPRAY - 400 ML

Ver 3.5	sion	Revision Date: 27.06.2017		S Number: 0575-00006	Date of last issue: 05.04.2017 Date of first issue: 11.06.2010
				Dry chemical	
	Unsuita media	ble extinguishing	:	None known.

5.3	Advice	for firefighters			
	Special for firef	protective equipment ghters	:	In the event of fire Use personal prot	e, wear self-contained breathing apparatus. ective equipment.
	Specific ods	e extinguishing meth-	:	cumstances and t Use water spray to	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	 Remove all sources of ignition. Use personal protective equipment. Follow safe handling advice and personal protective equipment recommendations.
6.2 Environmental precautions	
Environmental precautions	 Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
6.3 Methods and material for con-	tainment and cleaning up
	. New executive texts also be used

Methods f	or cleaning up	:	Non-sparking tools should be used. Soak up with inert absorbent material. Suppress (knock down) gases/vapours/mists with a water spray jet. For large spills, provide dyking or other appropriate contain-

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling	
Technical measures :	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation :	Use with local exhaust ventilation. Use only in an area equipped with explosion proof exhaust ventilation.
Advice on safe handling :	Do not breathe vapours or spray mist. Do not swallow. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice. Keep away from heat and sources of ignition. Take precautionary measures against static discharges. Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures :	Do not spray on an open flame or other ignition source. Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.
7.2 Conditions for safe storage, inc	cluding any incompatibilities
Requirements for storage : areas and containers	Store locked up. Keep in a cool, well-ventilated place. Store in accordance with the particular national regulations. Do not pierce or burn, even after use. Keep cool. Protect from sunlight.
Advice on common storage :	Do not store with the following product types: Self-reactive substances and mixtures Organic peroxides Oxidizing agents Flammable solids

8.2 Exposure controls

Engineering measures

Minimize workplace exposure concentrations. Use only in an area equipped with explosion proof exhaust ventilation. Use with local exhaust ventilation.

Personal protective equipment

Eye protection	:	Wear the following personal protective equipment: Safety glasses
Hand protection Material Break through time Glove thickness Directive	:	Nitrile rubber > 480 min 0,7 mm DIN EN 374
Remarks	:	Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous sub- stance and specific to place of work. For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufactur- er. Wash hands before breaks and at the end of workday.
Skin and body protection	:	Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Wear the following personal protective equipment: Flame retardant antistatic protective clothing. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).
Respiratory protection	:	Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines.
Filter type	:	Self-contained breathing apparatus

Components:

Hydrocarbons, C6, isoalkanes, <5% n-hexane:

Species: Rat, male NOAEL: 10,504 mg/l Application Route: inhalation (vapour) Exposure time: 90 Days Remarks: Based on data from similar materials

Hydrocarbons, C7, n-alkanes, isoalkanes, cyclics:

Species: Rat NOAEL: 12,47 mg/l Application Route: Inhalation Exposure time: 90 Days Remarks: Based on data from similar materials

Hydrocarbons, C6-C7, isoalkanes, cyclics, <5% n-hexane:

Species: Rat, male NOAEL: 10,504 mg/l LOAEL: 31,652 mg/l Application Route: inhalation (vapour) Exposure time: 91 Days Remarks: Based on data from similar materials

Aspiration toxicity

Not classified based on available information.

Components:

Hydrocarbons, C6, isoalkanes, <5% n-hexane:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

Hydrocarbons, C7, n-alkanes, isoalkanes, cyclics:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

Hydrocarbons, C6-C7, isoalkanes, cyclics, <5% n-hexane:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

SECTION 12: Ecological information

12.1 Toxicity

Components:

Hydrocarbons, C6, isoalkanes, <5% n-hexane:

according to Regulation (EC) No. 1907/2006
