

UNDERBODY PROTECTION SPECIAL

Diffusion-open underbody protection for use on wood underbodies

- Excellent adhesion to wood
- Compatibility-tested with conventional wood impregnations
- Very good anti-drone effect
- No running off of vertical surfaces
- Highly resistant to aging

Color	Contents	Art. No.	P. Qty.
Black	500 mL	0892 078 550	1/12

Areas of application:

Special underbody protection for use on wooden underbodies of caravans, motorhomes, trailers etc.

Thanks to the active-breathing properties of the underbody protection, moisture exchange of the wood is ensured. The penetration of moisture and other environmental influences is prevented.

Application:

Shake can well before using. The sub-surface must be dry, clean and rust- and grease-free. Optimum spraying distance: 30 cm. In the case of thicker coats, allow intermediate coats to flash off.

Note:

Turn can upside down and spray until valve is empty after use.

This information is only a recommendation based on our experience. Preliminary testing required! While using the product, both the technical data sheet and the specifications of the applicable regulations are to be complied with.
