

WORKSHOP CLEANER

Powerful, environmentally-friendly cleaner in the neutral pH range with extremely high dirt-removal power for floors, machines and installations.

Dirt is penetrated

- Oily/greasy dirt is not emulsified, rather it is penetrated and separated.

Environmentally friendly

- Biodegradable $\geq 95\%$.
- Contains no organic solvents.
- Without phosphate or phosphate compounds.
- No mobilization of heavy metals in bodies of water.
- Fast-separating in waste water in accordance with German Ecological Standard Test B 5105.

Especially hypoallergenic

- pH value: 8.5.

AOX- and silicone-free

Can be used on all conventional surfaces

Usage concentrations:

Floor-cleaning machines	3 – 10%
High-pressure devices	3 – 5%
Manual cleaning	3 – 50%

Designation	Contents in L	Art. No.	P. Qty.
Pump Spray Can	1	0891 512 0	1
Canister	5	0893 124	
Canister	20	0893 124 1	
Plastic barrel	60	0893 124 2	

Tap		
for	Art. No.	P. Qty.
5-liter canister	0891 302 01	1
20-liter canister	0891 302 03	
60-liter plastic barrel		

Use:

- Dilute Workshop Cleaner with water depending on degree of soiling, wet the soiled surfaces with the cleaning solution, allow it to work in and then wipe or rinse off. The cleaning effect is enhanced by the use of warm water.

Use:

- Can be used manually or in high-pressure units to clean engines, machines, tools, vehicles, floors of any type (except carpets), large kitchens, butcher shops, bakeries etc.
