

BURNER CLEANER

Specially developed cleaner for removal of grease, oil and other contaminations from burners.

Designation	Contents	Art. No.	P. Qty.
Canister (concentrate)	5 l	0893 77	1
Spray can	500 ml	0893 771	1/12

Areas of application:

For oil, grease and soot contaminated burner components, baffle plates, nozzle connectors, fan wheels, inside housings, initiating electrodes, etc.

Instructions for use:

Spray onto contaminated burner components, allow to react briefly and wipe off with a cloth.

Notes:

Shelf life: 12 months (500 ml) / 18 months (5 l).
Optimal storage temperature: -5°C to $+30^{\circ}\text{C}$.
Check painted surfaces for compatibility prior to application.

LIMESCALE REMOVER

Lime, boiler scale and rust dissolving cleaner for water carrying systems.

Designation	Contents	Art. No.	P. Qty.
Canister	5 l	0893 78	1

Areas of application:

Cleaning of heat exchangers, piping, water heaters, boilers, refrigeration systems, pumps, valves, etc. Removes lime, boiler scale and rust as well as algae and fungal growth.

Notes:

Shelf life: 18 months.
Optimal storage temperature: -5°C to $+30^{\circ}\text{C}$.
The limescale remover must not be allowed to directly enter the sewage system or the soil. The cleaned system should be refilled with water as soon as possible in order to prevent air corrosion.
After cleaning, thoroughly flush the system with lots of water.

- ▶ Outstanding cleaning capacity.
Your advantage:
 - Grease and oil are quickly and effectively dissolved and removed.
- ▶ Contains anti-corrosion active ingredients.
Your advantage:
 - Protects the system against rust and prevent formation of new deposits.
- ▶ Problem-free application
Your advantage:
 - After a short reaction time the product can simply be wiped off with a cloth.
- ▶ Ready-for-use solution.
- ▶ Suitable for all materials commonly used in boilers.
- ▶ Mild odor.
- ▶ AOX free.
- ▶ Silicon free.

- ▶ Universal uses.
Your advantages:
 - Suitable for use in all water-carrying systems.
 - Also suitable as immersion bath decalcifier for parts.
- ▶ Formula with high content of material protection inhibitors.
Your advantage:
 - Materials are effectively protected during and after the cleaning process.
- ▶ Simple handling.
Your advantage:
 - Dilute concentrate, depending on deposits, 1:1 to 1:2 with water.
- ▶ Suitable for all materials commonly used in boilers.
- ▶ Mild odor.
- ▶ AOX free.
- ▶ Silicon free.
