

MULTI

1 for 5: Versatile multi-function spray for five applications.

Rust Penetrating Agent

Outstanding creep properties ensure extremely fast penetration of rust and corrosion.

Lubricant

Excellent lubricating properties. Eliminates creaking and squeaking noises. Reduces friction and wear.

Cleaner

Good cleaning performance is ensured with penetration of dirt, grease and oil residues.

Corrosion protection

Outstanding adhesive properties on metal. A thin, viscous protective film prevents moisture at even the slightest unevenness and therefore effectively protects against rust and corrosion.

Contact Spray

Water and moisture-displacing properties and outstanding creeping capacity improves the electric conductivity and eliminates leakage currents.

Resin, acid and silicone-free

Does not attack rubber, paint or plastics

Designation	Content	Art. No.	P. Qty.
Aerosol can	400 ml	0893 055 40	1/12
Canister	5 l	0893 055 405	1
Canister	20 l	0893 055 420	1
Tap for 5 liter containers	-	0891 302 01	1
REFILLO®mat can	-	0891 881 23	1

Applications:

- Frees rusted bolts, pipe fittings, screws, bolts, nuts, joints, Bowden cables, shafts, locks, etc.
- Lubricates closures, hinges, bushings, chains and door locks.
- Stops squeaking and creaking.
- Cleans and protects plastic and metal parts, e.g. shrouding and housings.
- Prevents corrosion on metal and electrical assemblies, cable connections, relays, connectors, couplings, etc.
- Prevents icing-up of lock cylinders and closures.
- Penetrates and displaces moisture in areas of electrical and electronic systems.

ORSY®protec

Electrically-conductive canister coating for all flammable REFILLO®mat substances in 20 l canisters.

Art. No. 0891 870 77
P. Qty. 6

Technical Data:

Color	light-yellow transparent
Density	0.790 g/ml
Temperature range	-30°C to +130°C
Can temperature	-10°C to +30°C
Viscosity of base oil	30 cst at 40°C
Layer thickness	0.15 - 0.20 mm per coating

This information is only a recommendation based on our experience. Preliminary testing required.
