

INSECT REMOVER

ECO LINE Insect Remover removes even stubborn dirt in an environmentally-friendly manner. Guaranteed to be a high-quality, eco-friendly product, as indicated by its European Ecolabel.

Environmentally friendly

Reduces and prevents risks to people and the environment thanks to a reduction in packaging waste and increased biodegradability.

Thorough

Insect debris that can damage paint is removed without a trace.

Gentle on materials.

The gentle formula does not attack paint, chrome, plastic, rubber etc.

Versatile

Also suitable for pretreatment in car washes.
