

## STAINLESS-STEEL CUTTING WIRE

Extremely smooth surface, cuts through the adhesive bead more easily

- In practical plastic dispenser roll

| Designation             | Dimensions in mm | Edge radius in mm | Tensile strength in N/mm <sup>2</sup> | Length in m | Art. No.        | P. Qty. |
|-------------------------|------------------|-------------------|---------------------------------------|-------------|-----------------|---------|
| Square, stainless steel | 0.6 x 0.6        | 0.1               | 2,000 - 2,100                         | 50          | <b>0891 656</b> | 1       |

## SPECIAL STEEL CUTTING WIRE

Especially high tensile strength of cutting wire

- On conventional unwinding reel

| Designation           | Dimensions in mm | Edge radius in mm | Tensile strength in N/mm <sup>2</sup> | Length in m | Art. No.           | P. Qty. |
|-----------------------|------------------|-------------------|---------------------------------------|-------------|--------------------|---------|
| Square, special steel | 0.6 x 0.6        | 0.08              | 2,400 - 2,600                         | 50          | <b>0714 58 281</b> | 1       |

## SPECIAL STEEL CUTTING WIRE

Excellent flexibility with high tensile strength, especially suitable for hard-to-reach areas

- In practical plastic dispenser roll

| Designation           | Dimensions in mm | Edge radius in mm | Tensile strength in N/mm <sup>2</sup> | Length in m | Art. No.           | P. Qty. |
|-----------------------|------------------|-------------------|---------------------------------------|-------------|--------------------|---------|
| Square, special steel | 0.6 x 0.6        | Max. 0.08         | 2,000 - 2,200                         | 50          | <b>0714 58 282</b> | 1       |

## ROUND-WIRE CUTTING WIRE

The knotted winding offers a high sawing effect despite a lack of cutting edges

- Secured on a plastic spool

| Designation        | Dimensions in mm | Edge radius in mm | Tensile strength in N/mm <sup>2</sup> | Length in m | Art. No.          | P. Qty. |
|--------------------|------------------|-------------------|---------------------------------------|-------------|-------------------|---------|
| Knotted round wire | 0.8 mm dia.      | None              | 2,000 - 2,100                         | 22.5        | <b>0714 58 28</b> | 1       |
