

VAKU 40

Knifing filler for filling and leveling deep uneven areas and scratches.

Excellent adhesion on iron, steel, aluminum, galvanized and hot-galvanized surfaces, GFRP and wood.

- Can be used on all material surfaces.

Specific weight reduced by 30%.

- Extremely easy to sand, low dust level.
- User-friendly.

Quick drying.

- Ensures fast, time-saving further processing.

High filling capacity and non-sag property.

Maximum permissible VOC content VAKU 40: 250 g/l of product category 2(b).

Max. VOC content

according to ChemVOCFarbV: 0 g/l.

Designation	Color	Content	Art. No.	P. Qty.
VAKU 40	light beige	1,760 g + 40 g hardener	0892 604 02	1/4
Hardener	Red	40 g	0892 600 004	1

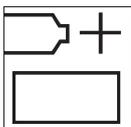

Use:	
Auto/cargo	In vehicle construction and in motor vehicle repair for deeply uneven areas and scratches as a basis for finishing with fine filler.
Metal	As filler in prototype construction and for compensating blowholes and welding spots.
Wood	Excellently suited as repair putty for use in the construction sector. For universal use on all types of wood. Excellently suited for wood restoration, in window, door and prototype construction. Not suitable for oily types of wood! Do not use on heavily weathered surfaces.

Notes on application:

The surface must be clean, dry and grease-free. Lightly sand surfaces. Only sand polyester material when dry if possible due to sensitivity to water. See separate information on wet sanding.

To exclude possible complaints, always ensure the correct dosing ratio between filler and hardener.

Notes on application:

Dosage:
2% hardener

Pot life:
4-5 min at 20°C

Drying time:
20-30 min.
at 20°C

P80-280
Wet:
only after complete
drying

Temperature resistant up to 80°C

This information is only a recommendation based on our experience. Preliminary testing required! For further information see the Technical Data Sheet. Subject to change.

Hint:

Roughly sand surface depending on condition to achieve optimum adhesion.

Iron, steel, zinc	P40 – P240
Aluminum	P150 – P240
GFRP	P150 – P240
Old paint	P150 – P240
