

# BOND+SEAL

## Applications / Requirements / Products

**Note:**

First select the most important requirement for your application. Then locate the suitable product on the "Application" line.

Requirement / Application	Elastic with great elasticity	Elastic with minimal elasticity	UV and weather-resistant	Food processing sector (certificate/NSF)	Coatable, paintable, with wait time	Coatable, paintable, immediate	Dynamic/mechanical high loads OK	Quick final strength
<b>Seam sealing / Joints</b> (e.g. overlapping chassis seams, container seals, step-by-step welding seams, housing seals, expansion joints, gap seals)	B+S			B+S	B+S			
	B+S FAST			B+S FAST	B+S FAST			
	B+S ALL IN 1		B+S ALL IN 1			B+S ALL IN 1		
<b>Restoration of the</b>	B+S ALL IN 1		B+S ALL IN 1					
<b>Visible joints</b> (e.g. connection joints)	B+S			B+S	B+S			
	B+S FAST			B+S FAST	B+S FAST			
		B+S POWER	B+S POWER	B+S POWER		B+S POWER	B+S POWER	B+S POWER
<b>Area adhesion</b> (e.g. bumper plates, bed plates, corrugated sheet metal and steps of carrier plates, corner and edge protection plates)	B+S			B+S	B+S		B+S	
	B+S FAST			B+S FAST	B+S FAST			
		B+S POWER	B+S POWER	B+S POWER		B+S POWER	B+S POWER	B+S POWER
<b>Seam adhesion / Point adhesion</b> (e.g. sheet metal overlaps, angle profiles, truck side panels, mounts, frame adhesions, sign and board mounting)	B+S			B+S	B+S		B+S	
		B+S POWER	B+S POWER	B+S POWER		B+S POWER	B+S POWER	
<b>Adhesion of reinforcement profiles</b>		B+S POWER	B+S POWER	B+S POWER		B+S POWER	B+S POWER	
<b>Adhesion of tuning parts</b> (e.g. spoilers) Observe the manufacturer's instructions!	B+S				B+S			
		B+S POWER	B+S POWER	B+S POWER		B+S POWER	B+S POWER
