

RSM 2-COMPONENT REPAIR FILLER

For closing, filling and touching up larger surface and edge damage. For use on wooden, decorative and plastic surfaces.

Excellent adhesive properties on wooden materials

Excellent loadability

- Hardness and strength equivalent to that of wood, highly weatherproof.
- Suitable for use both indoors and outdoors. Clear lacquer must be used for sealing outdoors.

Fast

Begins to dry in just a few minutes and can be loaded within 20 to 40 minutes depending on room temperature.

Can be painted and sanded

- The filler can be painted over with a very large number of paint systems.
- After hardening, can be processed using machines (sanded, sawed, planed and milled)

Scope of delivery	Color	Art. No.	P. Qty.
150 g filler 10 g hardener Accessories	Oak, light	0890 302 1	1
180 g filler 10 g hardener Accessories	White	0890 302 2	

Please note that the colors shown may differ from the original tone for printing-related reasons.

Fields of application:

- Especially suitable for repairing surfaces which may be subjected to extremely high loads. These include wood, plastic, metal, stone, polyester (not suitable for polyethylene, polypropylene or PTFE).
- For closing, filling and touching up scratches, cracks, open joints, holes, compressed and broken-off edges and for anchoring screws, hinges, bushings and fittings which have been torn out.
