

PNEUMATIC RATCHET SCREWDRIVER

Durable ratchet driver with speed regulation and plastic handle for the prevention of vibrations and cold hands.

1/4" DRS

1. Art. No. 0703 814 0

3/8" DRS

2. Art. No. 0703 838 0

1/2" DRS

3. Art. No. 0703 812 0

Precision planetary gear.

Greater transmission of force and longer service life.

Short form (1/4" + 3/8").

Ideally suited for use in hard-to-reach places.

Outlet air guided toward rear, away from working area.

No air outlet in the working area.

Speed can be set via integrated controller.

Optimum adjustment to application.

Right/left directional switch is in a recess.

Prevents inadvertent switching.

Swiveling compressed-air connection.

Eliminates twisting of connection hose.

Rubber coating of ratchet head.

Prevents dirt from penetrating into unit.

3-year warranty.

During this period, all manufacturing or material defects will be repaired free of charge.
