

HOSE CLAMPS AND OTHER CLAMP TYPES

For cars, utility, special-purpose and specialized vehicles, agricultural machines and tractors

Product	Material code	Fuel line systems	Lines carrying air	Airbag	Exhaust system/EGR	Oil and hydraulic low pressure	Coolant/heating	Bracket/Fastener
ZEBRA® Hose Clamp	W2	X	X				X	X
ZEBRA® A4 Hose Clamp	W5	X	X				X	X
„Rapid“ Quick-Release Clamp	W2	X	X			X	X	X
ZEBRA® Power Fuel Hose Clamp	W3	X						
ZEBRA® Mini Hose Clamp	W2							X
Screwless Hose Clamp	W4	X	X	X				
Clamping-Jaw Hose Clamp	W1			X				
1-Ear Clamps	-	X	X	X		X	X	X
Swivel Bolt Clamp	W1/W5		X		X			X
Pipe and Bracket Multifix	W1							X
Universal Tensioning Strap/Turnbuckle	-							X

Product/Application table

In the above table, the applications are matched to all the hose clamps and other clamps to provide a simple overview. This matching is a recommendation.

Material codes

The following codes were established for various materials according to DIN; here these materials represent minimum requirements:

W1 = All parts made entirely of galvanized steel

W2 = Band and housing: Stainless steel 1.4016.

Bolt: galvanized steel

W3 = All parts made entirely of non-rusting steel 1.4016

W4 = All parts made entirely of non-rusting steel 1.4301

W5 = All parts made entirely of non-rusting steel 1.4401
