

## INTERIOR CLEANER

The environmentally friendly **ECO LINE** interior cleaner cleans all car interior surfaces that can be wiped moist both thoroughly and quickly.

Guaranteed to be a high-quality, eco-friendly product, as indicated by its European Ecolabel.

### Environmentally friendly

Reduces and prevents risks to people and the environment thanks to a reduction in packaging waste and increased biodegradability.

### Thorough

Effortlessly removes nicotine deposits, dirt from shoe scuffing and road dirt.

### Gentle on materials

Thanks to the absence of solvents and aggressive chemicals, it is compatible with almost all materials used in car interiors.

Content in ml	Art. No.	P. Qty.
500	0893 033 1	1/12

### Use:

Add 10-15 ml (1 - 1.5 screw caps) of ECO LINE Interior Cleaner to a bucket with approx. 5 liters of water and mix. Then soak a microfiber cloth or sponge in the washing solution and clean the surface. Rub the cleaned surfaces dry with a clean cloth.

### Applications:

For cleaning all car interior surfaces that can be wiped moist, such as plastic, glass, painted surfaces, metals, tiles etc.

### Note:

Soak stubborn dirt beforehand. Do not use on hot surfaces or in direct sunlight.

### Technical Data:

pH value	7.5
Form	liquid
