

# UNIVERSAL SHAMPOO

**The innovative ECO LINE Universal Shampoo can be used for complete household, workshop or car cleaning. Guaranteed to be a high-quality, eco-friendly product, as indicated by its European Ecolabel.**

### Environmentally friendly

Reduces and prevents risks to people and the environment thanks to a reduction in packaging waste and increased biodegradability.

### Gentle on the skin

Thanks to skin-friendly tensides and a neutral pH value.

### Economical

The integrated Top-Dos dispensing unit allows precise dosing (25 ml per dispensing).

### Versatile

The shampoo can be used with different cleaning equipment and is compatible with almost all materials.

| Content in ml | Art. No.   | P. Qty. |
|---------------|------------|---------|
| 250           | 0893 012 1 | 1/12    |

### Use:

Add one dispensing head filling (25 ml) of ECO LINE Universal Shampoo to a bucket with 10 liters of water and mix. Shampoo the surfaces with a sponge or cloth.

Rinse off with clean water, and rub dry if necessary.

### Applications:

Suitable for cleaning all water-resistant surfaces such as plastic, glass, painted surfaces, metals, tiles etc. Effortlessly removes all kinds of dirt.

### Note:

Do not mix with other cleaning agents.

| Technical Data: |          |
