

ACCESSORIES FOR SAFETY SHOES

Underside features heel-support element, upper side is breathable

2-width insole

For even greater comfort on long workdays, swap out the standard insole for the 2-width insole which matches your foot.

Heel-support element made of special plastic provides continuous grip. This insole is part of the type examination for safety shoes. It is currently approved for all models marked with the 2-width logo.

Foot width	Art. No.	Size
Narrow (yellow)	M 039 072 ...	36 - 48
Wide (red)	M 039 074 ...
