TEX-REIN CLEANING CLOTH

Color	Format in cm	Grams per square meter (g/m²)	Type	Art. No.	P. Qty.
turquoise	27 x 38	69	1 box = 150 cloths	**0899 810**	1/4

Instructions:
As table-top box for removal from above
Ideal for on the move or directly at the workplace.

With wall bracket as wall-mounted box for removing cloths from below
Store cloths so that they are protected against dust and splash-water.

Applications:
The crêped, reusable cleaning cloth is suitable for multiple dry and wet wiping operations. Its soft components make it ideal for cleaning smooth and sensitive surfaces, e.g. final cleaning before painting. Also very well suited for use in print shops and the electronics sector.

Robust, strong and versatile cleaning cloth, even when wet.

Special fold allows individual cloths to be removed

Extremely resistant to tearing, wet and wear

Resistant to most solvents

Very absorbent and durable

Washable, wringable and reusable

Color-fast so no bleeding

POLISHING CLOTH TEX-POLISH

Color	Format in cm	Grams per square meter (g/m²)	Type	Art. No.	P. Qty.
white	40 x 38	40	1 box = 150 cloths	**0899 811**	1/4

Instructions:
As table-top box for removal from above
Ideal for on the move or directly at the workplace.

With wall bracket as wall-mounted box for removing cloths from below
Store cloths so that they are protected against dust and splash-water.

Applications:
The polishing cloth is made of special fleece material with a fine perforated texture, which makes it very good at binding dust and allows it to be used for both wet or dry polishing. Very well suited to polishing sensitive surfaces.

Super-soft all-round polishing cloth.

Special fold allows individual cloths to be removed

Extremely resistant to tearing, wet and wear

Solvent-resistant, silicone-free and safe for food

Super-soft, very absorbent and durable

Washable, wringable and reusable

100 % viscose fibre so particularly environmentally friendly

Spunlaced without using synthetic fiber
