

MOULD REMOVER

For fast, thorough removal of mold, green coatings, mildew spots, bacteria and algae.

Fast

Immediate, lasting effect of active chlorine.

Hygienic

Acts as a disinfectant.

Long-lasting

Removes mold permanently and preventively.

Broad range of uses

Ideal for indoor and outdoor use.

Areas of application:

The mould remover can be used on all mineral surfaces, e.g. plaster, concrete, masonry, wood, ceramic tiles, natural stone tiles, silicone, cement joints, latex paint coatings, glass and plastic.

Notes:

Caution! Do not use together with other products, as dangerous gases (chlorine) can be released. A mild chlorine odor

results during use. Due to the bleaching effect of the active chlorine, sensitive and colored surfaces (e.g. wallpaper, carpet, textiles, clothing, wood and metals) may be bleached on the surface. Use biocides safely.

Always read the label and product information before use!

Contents	Art. No.	P. Qty.
1 l	0890 970	1/6

Technical Data:	
Raw material base	Aqueous sodium hypochloride solution
Color	Transparent/yellowish
Odor	Chlorine
Application temperature	min. +5 °C
pH value	Approx. 12
Consumption	50-100 ml/m ²
