

ANGLE GRINDER

1,400 W handy angle grinder for grinding and roughing-disk work on stainless steel.

EWS 14-125 INOX
Art. No. 0702 478 0

High torque in medium and low speed range.

Thus there is minimal bluing of the material thanks to the special gear unit.

Long motor service life.

Thanks to the triple winding protection which protects against metal dusts.

Optimum adaptation of the speed to the material to be processed.

Thanks to the electronic speed control.

3-year warranty.

On manufacturing and material defects.

Delivery scope		
Designation	Art. No.	P. Qty.
EWS 14-125 INOX Angle Grinder	0702 478 X	1
Additional Handle	0708 478 045	

Technical data		
Voltage	V/Hz	230/50
Protection class		□/II
Power consumption	in W	1.400
Output	in W	880
Nominal speed	r.p.m.	2,500 - 7,500
Max. disk dia.	in mm	125
Grinding disk thickness	in mm	1 - 6
Spindle thread	M	14
Cable length	in m	4
Weight	in kg	2.4

Available in the fleet management system ORSY® fleet.
