

# CORE DRILL

## Technical information for DS 130-P and DS 130-T

### Unit elements

- 1 Additional handle (360° rotation)
- 2 Water regulation
- 3 Speed-selection switch for speed regulation
- 4 Bubble levels
- 5 Coated aluminum handle
- 6 LED motor load indicator
- 7 Water-flow indicator

The machine spindle has a combined tool mount with a common 1/2" inside thread and 1 1/4" outside thread.

## Accessories

Image	Designation	Art. No.	P. Qty.
4	Second Handle Piece for DS 130-T	<b>5709 112 010</b>	1
5	Dry Drilling Set with dust extraction for DS 130-P/DS 130-T	<b>5709 112 111</b>	1
6	Industrial Wet and Dry Vacuum ISS 55-S Automatic	<b>0701 156 0</b>	1
7	Carriage for DS 130-P/DS 130-T	<b>5709 111 112</b>	1
8	DS COMPACT and DS COMFORT Drilling Stands for DS 130-P/DS 130-T	<b>5709 14. 0</b>	1
9	Diamond Wet Drilling Bits for DS core drills	<b>545. ... ..</b>	1
10	Water pressure tank for drilling work without a water connection at the construction site. Pressure gauge for tank pressure (max. 6 bar). Fill volume: 10 L, hose length: 2.5 m. Safety valve against overpressure and for relieving residual pressure. Large filling funnel	<b>0651 150 205</b>	1

### Second Handle Piece for DS 130-T Dry drilling set with dust extraction

- Ideal for vertical drilling
- Enables working in back-saving body positions
- Enables dust-free drilling
- The dry drilling set connected in front prevents the penetration of drilling dust into the machine interior
