

DIAMOND CUTOFF WHEEL FOR TILE

Tiles

Properties:

Versatility: ●○○○
 Service life: ●●○○
 Cutting speed: ●●●○
 Cutting quality: ●●○○

For dry and wet cutting

Long-lasting, economical diamond cutoff wheel for tile layers, plumbing companies, stone cutters and similar trades. For material thicknesses up to approx. 20 mm.

Very economical

The WÜRTH tile cutoff wheel is an optimum compromise between function and economy. A segment height of 7.5 mm ensures a good service life.

Optimized cutting quality

The closed edge and fine segment structure enable a clean cut.

Delivery overview:

For angle grinders

Dia. in mm	Hole in mm	Segment height in mm	Segment thickness in mm	Segment conn.	max. rpm	Art. No.	P./Qty.
115*	22.23	7.5	1.6	sintered	13,300	5527 130 115	1
125*	22.23	7.5	1.6	sintered	12,200	5527 130 125	1

* Max. circumferential speed: 80 m/s
