Flexible use on machines with 25.4 and 30 mm mounts

A reducing ring pressed in at the factory can simply be removed if necessary to widen the mounting hole to 30 mm.

Dia. in mm	Hole in mm	Segment height in mm	Segment thickness in mm	Segment connection	Max. rpm	Art. No.	P.Qty.
180*	30/25.4**	9	1.6	Sintered	8,500	5527 170 183	1
200*			2.0		7,650	5527 170 203	
230*					6,600	5527 170 233	
250*			6,150		5527 170 253		
300*		9.5	2.2		5,100	5527 170 303	
350*					4,400	5527 170 353	

* Max. circumferential speed: 80 m/s

**With pressed-in reducing ring from 30 to 25.4 mm

Field of application:

For wet cutting with stationary saws and table saws.

Tiles

Soft clinker
