

BRUSH LINE

Our brushes are grouped into three quality levels:

Level 1:

For optimum painting results. Especially suitable for professional painters and particularly demanding painting/lacquering work.

Level 2:

For good painting results. Our standard quality is especially suitable for professional painters and general painting/lacquering work.

Level 3:

Suitable for simple painting and lacquering work.

Brush type	Common applications
Round brush	E.g. moldings, window frames, wrought iron, door rebates, doors and furniture
Flat brush	E.g. doors, furniture and fences
Wide brush	Large areas, e.g. facades, floors, fences and wood terraces
Facade brush	Walls and facades
Radiator brush	Hard-to-reach places, e.g. behind radiators, pipes, corners and recesses
Flat brush, angled brush, small touch-up brush	E.g. corner and edge areas, paint borders, lines and touch-up work
Ceiling brush	E.g. brushing and pasting, walls and facades
