

## SUPER POLISHING PAD WITH VELCRO

**Special polishing sponge for machine polishing and cleaning of vehicle paints.**

**New type of tear-resistant surface texture with individual "foam rubber finger"**

- 9x larger contact surface than with standard polishing sponges
- Faster work results.
- Longer service life
- Less frequent cleaning of the pads is needed

**Air-permeable, independent circulation of the "foam rubber finger"**

- Less heat produced
- Less grinding residue
- Prevents grinding marks

## POLISHING PLATE SET

**Velcro polishing plate with special interface for the fastening of polishing sponges, lambskins and microfiber pads.**

**Removable soft interface.**

- Saves time, as lambskin, microfiber pad and polishing sponges can be mounted without changing the polishing disk.
- Fast work results

**Soft cellular-foam structure.**

- Works optimally on domed surfaces and curves
