

PRIMER-FILLER

Designation	Contents in mL	Art. No.	P. Qty.
Primer Filler, dark gray	400	0893 211 101	1/12
Primer Filler, medium gray		0893 211 102	
Primer Filler, light gray		0893 211 103	

Features:

Quick-drying primer filler with active corrosion protection for optimum top-coat results in the color shades dark gray, medium gray and light gray.

Areas of application:

Spot repair, accident repairs, vehicle body repair, paint work.

Application:

The application surface must be clean, dry and grease-free. Lightly sand problematic application surfaces. Shake can well before using. Apply the first spray coating thinly. Comply with flash-off time. Drying time: 20 min., after approx. 8 - 12 min. can be painted over with all common one-component, two-component and water-based top-coating paint systems.

Notes:

Turn can upside down and spray until valve is empty after use.

Active corrosion protection with very good filling properties for metallic surfaces

Variety of color shades

- Excellent covering power in a short time with minimal consumption
- Optimum top-coat paint build-up

Exceptional adhesion properties, even in conjunction with PU and MS polymer sealing compounds

Very good filling power

- Easy filling of small damage and traces of sanding

Heat-resistant up to 110°C

Very easy to sand

VOC*-compliant

- Solvent-reduced
- Complies with the maximum VOC content specified in the VOC Directive (1999/13/EC)

* Volatile Organic Compound

Top-coat paint colors to be processed				Filler color
				0893 211 101 Primer-Filler Dark gray
				0893 211 102 Primer-Filler Medium gray
				0893 211 103 Primer-Filler Light gray

This information is only a recommendation based on our experience. Preliminary testing required! During use and painting over, both the technical data sheet and the specifications of the top-coat paint manufacturer must be observed.
