| 11             | Adapter plate for ORSY BULL® machine case | <b>0702 400 001</b> | 1     | 1       |

**Innovative, handy, flexible wet-and-dry vacuum cleaner for the professional craftsman.**

**Despite its compact design, the unit offers high vacuuming power.**

**A special adapter plate included as standard equipment enables simple, safe fastening of up to two ORSY BULL® machine cases or, by using the integrated fastening belts, cases of other manufacturers.**

**HWS 15-L**  
**Art. No. 0701 115 0**

**Power connection directly on vacuum cleaner for power tools from 100 - 2,200 W with automatic switch-on and switch-off mechanism.**

The vacuum cleaner automatically switches on and off together with the tool. And no additional extension cable is needed.

**Certified for Dust Class L ("light" dangerous dusts).**

Suitable for dusts with a maximum workplace concentration > 1 mg/m<sup>3</sup>.

**Semi-automatic filter cleaning system.**

Effective filter cleaning for constant high vacuum power.

**Ingenious storage options for accessories.**

The accessories are always available while "on the move".

**Small, light and mobile.**

The compact size, the low weight and the folding push handle enable a high degree of mobility for the user.

**3-year warranty.**

During this period, all manufacturing or material defects will be repaired free of charge.

Just a press of the button and the vacuum cleaner is released from the chassis. The accessories are compactly stowed in the chassis.

The vacuum tank can also be placed on a workbench for vacuuming on the same level or on the ceiling.

Up to two ORSY BULL® machine cases can easily be mounted on the adapter plate.

Other tool cases can also be mounted on the vacuum cleaner by using the integrated clamping cables.
