

## WALL AND CEILING SANDER

**Ergonomic long-neck sander with high removal rate and effective dust extraction. Ideal for sanding gypsum plasterboards, full heat-insulation styrofoam panels and preparation for painting.**

### WSS 225-E

**Art. No. 0702 122 1**

#### Effective extraction.

Low-dust working means healthier working. Extraction between the brush ring and sanding disk and via the 10-hole extractor prevents rapid clogging of the sanding material.

#### Easy to guide.

Optimum balance between motor and sanding head for fatigue-free working.

#### Spring-borne sanding head hood.

Perfect adjustment of the sanding head to any unevenness for easy sanding.

#### Speed control.

Speed adjustable via setting wheel. You can precisely adjust the speed to the sanding application.

#### 3-year warranty.

On manufacturing and material defects.

Case	<b>0955 702 122</b>	

Technical data	
Power consumption	500 W
Idling speeds	1,000 -1,650 r.p.m.
Sanding disk diameter	225 mm
Length	1,580 mm
Weight	4.8 kg

**Available in the fleet management system ORSY®fleet.**

#### Suitable abrasive:

**ZEBRA® Useit® Superpad, 225 mm dia.  
Art. No. 0581 205 + grit**

### Accessories

**ISS 45-M automatic  
Art. No. 0701 146 0**

For your health: Certified vacuum for reliable extraction of fine dusts.

**Anti-Static Hose  
Art. No. 0702 400 275**

With a "click system" for secure retention: The hose cannot become detached by itself while working.

**Velcro Sanding Disk, 225 mm dia., medium  
Art. No. 0702 122 002**

Ergonomic working: For a high removal rate while sanding without having to apply more pressure.

**Velcro Sanding Disk, 225 mm dia., hard  
Art. No. 0702 122 003**

Ergonomic working: For maximum removal during coarse pre-sanding without having to apply more pressure.
