

## ELECTRIC PLANE

**High-performance plane with extra-large chip ducts and chip bag for fault-free, clean operation.**

**EH 4**

**Art. No. 0702 816 1**

**High-performance motor with 1,050 W.**  
Effortless planing without the need to exert a great deal of force, even with hard wood.

**Large blade shaft diameter.**  
Perfect surface results thanks to high circumferential speed.

**High-volume chip bag with optical fill-level indicator.**  
Almost no cleaning work required around working area.

**Chip ejection can be set to left or right side.**  
Maximum working flexibility.

**3-year warranty.**  
During this period, all manufacturing or material defects will be repaired free of charge.

Delivery scope		
Designation	Art. No.	P. Qty.
EH 4 electric plane	<b>0702 816 X</b>	1
Chip bag	<b>0708 816 025</b>	1
Chip bag holder (plastic)	<b>0708 816 026</b>	1
Intermediate adaptor	<b>0708 816 027</b>	1
Plastic carrying case	<b>0955 702 815</b>	1

Designation	For EH 4 models Art. No.	Previous models EH 80/850 Art. No.
Carbide reversible blade	<b>0713 64 23</b>	<b>0713 64 21</b>
Connection piece for ISS vacuum cleaner	<b>0702 400 027</b>	-

Technical data	
Voltage	230 V
Protection class	□/ II
Power draw	1,050 W
Power output	620 W
Idling speed	13,500 rpm
Base length	320 mm
Plane width	82 mm
Rebate depth (max.)	25 mm
Plane depth (max.)	4 mm
Cable length	4 m
Weight	4 kg
Dimensions L x W x H	320 x 180 x 180 mm
