ISS 45-M industrial vacuum cleaner	-	0701 145	1

Powerful hand-held circular saw with cutting depth of 71 mm. Packed in box including saw blade.

HKS 71
Art. No. **0702 172 0**

Rugged and reliable.

The saw stands up even under tough operating conditions.

Stepless cutting depth adjustment.

The saw blade does not extend too far out of the wood, reducing the danger of injury.

Mitre angle adjustment.

Thanks to the simple adjustment, mitre cuts of up to 45° can be carried out.

Suitable for use with guide rail (accessory).

The saw can be precisely guided over a length of 1.4 metres.

Protective hood with extraction.

By using a suitable vacuum cleaner, e.g. the ISS 45-M, the workplace can be kept clean.

3-year warranty.

During this period, all manufacturing or material defects will be repaired free of charge.
