

"POWER" FUEL HOSE CLIP

Technical Data	
Strap material	1.4301 stainless steel A2
Screw/housing material	1.4016 stainless steel F1, tin-plated
Screw type	Slotted
Strap width	9 mm
Jaw span	6 mm

Clamping range in mm	Art. No.	P. qty.
8 - 12	0539 28 12	100
10 - 16	0539 210 16	100

Processing Tools

Screwdriver Size 6

with flexible shaft

Art. No. 0613 286 06

P. Qty. 1

High tightening torque

Area of use

Fuel line systems

- Fuel pump
- Fuel distributor
- Fuel filter
- Fuel tank connections
- Pressure compensation vessel / radiator

Higher tightening torque than standard hose clamps, recommended 3.5 Nm

- No manual over-tightening possible

Asymmetrical housing (1)

- Even force distribution
- Clamp head does not tilt away during tightening

Smooth/indented strap interior, rounded edges

- Prevents injuries and skin damage
