ZEBRA® Drill Bit HSS 338 dia. 5.0 mm	0624 000 500	2
ZEBRA® Drill Bit HSS 338 dia. 6.0 mm	0624 000 600	2
ZEBRA® Drill Bit HSS 338 dia. 8.0 mm	0624 000 800	2

Technical data	
Voltage	230 V
Protection class	□ / II
Idling speed	0-900 / 0-2,500 rpm
1st/2nd gear	
Load speed	0-520 / 0-1,500 rpm
1st/2nd gear	
Power consumption	600 W
Power output	300 Watt
Drill chuck clamping jaw width	1-13 mm
Drill chuck mount	1/2" - 20 UNF
Clamping neck dia.	43 mm Euro-standard
Corner-to-corner	32.5 mm
Cable length	4 m
Weight	2.2 kg

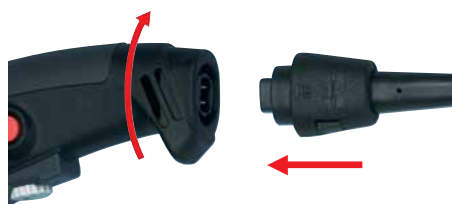

Drilling diameter	
Steel	13 mm
Aluminum	16 mm
Soft wood	40 mm
Wood screws in soft wood max. dia.	6 mm
Thread cutting	M 8

- Automatic spindle lock for comfortable one-handed tool changing.
- Single-sleeve quick-action drill chuck with clamping force lock and carbide jaws. Prevents turning of the tool in the drill chuck.
- Special plug-in system for super-quick changing of a defective cable or for longer mains lines.
- All-metal planetary gearing for high reliability and optimum force transmission.
- Electronic acceleration switch with adjustment wheel for stepless speed control.
- Two-speed switch with lock on the outside of the housing. This makes inadvertent switching impossible.
- Clockwise/anticlockwise switch on the top of the housing.
- Service cover for simple carbon brush change. There are also replacement carbon brushes in the handle.
- Ergonomic handle with rubber pad for increased operating comfort.
- Stable additional handle with depth stop for a secure hold, even at high rotation torques.
- The glass fiber-reinforced polyamide housing is stable, ergonomic and compact.
- 3-year warranty.

Clockwise/anticlockwise switch on the top of the housing ensures maximum turning torque in both rotation directions via optimum positioning of the carbon brushes and extends the service life of the carbons.

Replaceable connection cable: turn cable plug to left and remove cable. Insert new cable and lock by turning to right.
